## ABOUT TIFFANY BROWN DESIGNS

Tiffany Brown Designs focuses on a young demographic ranging from 20-29. We create inexpensive clothing that is still in the latest trends. This is critical to the twenty year old age bracket. We cater to a 20- something, modern and fashionable young adult, with broad interests, and entering new life stages.

We found that the 20-somethings aren't just creating a look, they're creating a life. Tiffany Brown Designs gives them that ability to have the latest trends at affordable prices.
